BERRIES
INNOVATIVE

The Pro-Berry harvester was developed in 2016.

Pro-Innov was approached by haskap growers to find a quick solution for their harvest. This is how this unique and innovative concept was born and it is the first in the Canadian industry!

This equipment allows the harvest of berries such as haskap, aronia, blackcurrants, blueberries, etc.

The 2021 new model is now available.

New improvements make Pro-Berry even more efficient.
